Title: FLUID EJECTION DEVICE

RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Election/Restriction

In the written Election/Restriction Requirement mailed September 25, 2006, the Examiner required restriction to one of the following species:

- I. Species I (claims 1-8): comprises a control line, firing cells, and control circuitry;
- II. Species II (claims 9-22): comprises firing cells and a first address generator;
- III. Species III (claims 23-24): (Note that Applicant assumes that the Examiner meant claims 23-34); comprises firing cells and an address generator including a first and second bank circuitry;
- IV. Species IV (claims 35-39): comprises firing cells, a control line, and a first address control circuit;
- V. Species V (claims 40-47): comprises receiving a control signal, a first means for ejecting fluid, a second means for ejecting fluid, and means for responding to control signals;
- VI. Species VI (claims 48-50): comprises receiving a control signal, initiating a first sequence of address signals, and initiating a second sequence of address signals;
- VII. Species VII (claims 51-57): comprises receiving control signals, providing a first sequence of first address signals, providing a second sequence of second address signals, wherein the first and second address signals are independent;
- VIII. Species VIII (claims 58-63): comprises firing cells, an address generator, a first bank circuitry and a second bank circuitry, responding to timing pulses.

OCT 25 2006

Response to Restriction Requirement

Applicant: Trudy L. Benjamin

Serial No.: 10/827,142

Filed: April 19, 2004

Docket No.: 200309559-1

Title: FLUID EJECTION DEVICE

In response to the Election/Restriction Requirement, Applicant hereby elects Species VIII with traverse for prosecution on the merits. Applicant makes this election with traverse because the Examiner made an error in the Restriction Requirement in indicating that the Species I-VIII are all respectively grouped by claims. M.P.E.P § 806.04(e) specifically states that "claims are definitions of inventions. *Claims are never species. . . . Species are always the specifically different embodiments.*" Therefore, Applicant respectfully submits that the above species Election/Restriction Requirement is not proper.

Elected Species VIII comprises firing cells, an address generator, a first bank circuitry and a second bank circuitry, responding to timing pulses. Species II comprising firing cells and a first address generator is generic to Species VIII. Species III comprising firing cells and an address generator including a first and second bank circuitry is generic to Species VIII. Accordingly, pending claims 9-34 and 58-63 read on elected Species VIII.

CONCLUSION

Having thus addressed the Election/Restriction Requirement imposed by the Examiner, Applicant respectfully requests reconsideration of the application and allowance of all pending claims.
